MEDICAL

Dr. Andrew William Brown is a highly experienced orthopedic surgeon and sports medicine specialist with a career spanning over two decades. He earned his medical degree from the University of Missouri, Columbia School of Medicine, and completed his orthopedic surgery residency at the University of Colorado Health Sciences Center. Dr. Brown further specialized with a Sports Medicine Fellowship and an NIH Fellowship in Musculoskeletal Science at the University of Iowa. His career has included academic roles as an Assistant Professor at both the University of Arizona and the University of Iowa, and extensive clinical work in sports medicine, military, and civilian settings.

Dr. Brown has served as a team physician for numerous professional, collegiate, and high school athletic programs, including the Chicago White Sox, University of Colorado varsity athletes, and Maryville University. His clinical expertise encompasses sports-related injuries, knee and shoulder conditions, ligament reconstruction, and fracture care. His military service as a Flight Surgeon with the U.S. Air Force Reserve and orthopedic surgeon at multiple bases underscores his ability to handle complex trauma cases.

An accomplished researcher, Dr. Brown has contributed to publications and presentations on topics such as ACL reconstruction, patellofemoral pain, and musculoskeletal biology. His work has been featured in peer-reviewed journals and national conferences, reflecting his dedication to advancing orthopedic care. He is board-certified by the American Board of Orthopaedic Surgery and remains actively involved in sports medicine and orthopedic innovation.

Dr. Brown is uniquely qualified for Independent Medical Evaluations (IMEs), providing expertise in sports injuries, joint reconstruction, and trauma care. His comprehensive understanding of orthopedic conditions and ability to communicate complex medical concepts make him a trusted choice for legal and medical evaluations.
