Calvin Cajigal, MD is a board-certified pain management physician and anesthesiologist with over a decade of experience in interventional pain management. He currently practices at Western Anesthesiology Associates Inc., where he specializes in advanced pain treatment modalities to help patients achieve long-term relief and improved quality of life. Prior to this, he served as a pain management physician at Eureka Pain Clinic in Missouri and NeuroPain Consultants in Michigan. His medical training includes a pain management fellowship at the University of Iowa Hospital and Clinics and an anesthesiology residency at Case Western Reserve University – MetroHealth Medical Center. Dr. Cajigal earned his Doctor of Medicine degree through the prestigious six-year combined program at the University of Missouri-Kansas City.

In addition to his clinical practice, Dr. Cajigal has contributed to the field of pain medicine through research and professional presentations. He has presented multiple case reports at the Midwest Anesthesia Residents Conference, focusing on topics such as high cervical spinal cord stimulation for headaches and the management of lumbar synovial cyst ruptures. His expertise is further recognized through dual board certifications from the American Board of Anesthesiology in both anesthesiology and pain medicine. Dedicated to staying at the forefront of his specialty, he is an active member of leading professional organizations, including the American Society of Pain and Neuroscience and the American Society of Anesthesiologists.

Beyond his medical career, Dr. Cajigal has a strong commitment to education, leadership, and community service. He has served in multiple leadership roles, including as an Anesthesiology Resident Selection Committee member and a representative for graduate medical education. His dedication to mentorship is evident through his work as a student advocate, tour guide, and mentor for younger medical students. Passionate about giving back to the community, he has volunteered with organizations such as the American Cancer Society's Relay for Life and the Sherwood Center for Autism. Dr. Cajigal's well-rounded experience in patient care, research, and community involvement underscores his dedication to advancing pain management and improving patient outcomes.
